EDUCATION

Ph. D. in Mathematics. Princeton University, Princeton, New Jersey June 2008
Thesis: *Extremal Problems in Digraphs*. Advisor: Paul D. Seymour.

M. A. in Mathematics. Princeton University, Princeton, New Jersey January 2005

B. S. Computer Science,
B. S. Applied Mathematics. Georgia Institute of Technology, Atlanta, Georgia May 2003
Summa Cum Laude, minor in Economics, GPA: 4.0

PROFESSIONAL EXPERIENCE

Associate Professor, Department of Computer Science
Chancellor's Faculty Excellence Program in Data-Driven Science
Associate Faculty, Department of Mathematics
North Carolina State University, Raleigh, NC August 2016 – present

Joint Faculty, Computer Science & Mathematics Division
Oak Ridge National Laboratory (ORNL), Oak Ridge, TN August 2013 – present

Assistant Professor, Department of Computer Science
North Carolina State University, Raleigh, NC August 2013 – July 2016

Research & Development Staff Member, Complex Systems Group
Oak Ridge National Laboratory, Oak Ridge, TN July 2008 – August 2013

Graduate Research Assistant, Department of Mathematics
Princeton University, Princeton, NJ September 2003 – June 2008

Visiting Researcher
Rényi Institute, Budapest, Hungary October 2007 – April 2008

Graduate Student Intern, Theory Group
Microsoft Research, Redmond, WA Summer 2007

U. S. Department of Homeland Security (DHS) Graduate Fellow Intern
Oak Ridge National Laboratory, Oak Ridge, TN Summer 2004

Undergraduate Researcher, Departments of Mathematics and Computer Science
Georgia Institute of Technology, Atlanta, GA June 2001 – August 2003

HONORS

Moore Investigator in Data-Driven Discovery (2014); 1 of 14 selected from 1100.

National Consortium for Data Science Faculty Fellow (2014)

Best LDRD SEED Project Poster, Oak Ridge National Laboratory (2012)

Supplemental Performance Award, Oak Ridge National Laboratory (2009, 2011)

DHS Dissertation Grant (2006 – 2007)

DHS Graduate Fellowship (2003 – 2006)

Phi Kappa Phi Scholarship Cup, *Georgia Tech senior with most outstanding academic record* (2003)

Georgia Tech President’s Scholar, *full tuition & stipend support* (1999 – 2003); Jo Baker Scholar (2003)

University System of Georgia Outstanding Scholar (2003)

SOFTWARE

Unless otherwise noted, all packages are hosted at <http://github.com/theoryinpractice>.

SPACEGRAPHCATS

With C. Titus Brown, D. Moritz, M. P. O'Brien*, F. Reidl.

Package for efficiently computing a hierarchy of r -dominating graphs that summarize the neighborhood structure of a sparse graph at multiple resolutions. Includes functionality for fast extraction of the neighborhood around a set of query vertices. The target use case for spacegraphcats is to organize de Bruijn graphs of large metagenomic sequence data and support queries to enhance binning and detect strain variants. Project hosted at: <https://github.com/spacegraphcats/spacegraphcats>.

PRACTICAL OCT

With T. D. Goodrich*, E. Horton*.

Practical OCT is a suite of pre-processing routines, heuristics, solvers, and harnesses used to compare algorithms for Odd Cycle Traversal (graph bipartization) based either on their runtime or the size of a discovered OCT set.

CONSEQUENCES

With A. L. Fisher†, T. D. Goodrich*, A. Wright†.

Consequences provides a common interface for all existing algorithms for computing contraction sequences for tensor networks. The framework includes container-based (Docker) wrappers for both treewidth-based and domain-specific solvers, as well as Python-based utilities supporting data conversions, command-line usage, and batch experiments.

TOBOGGAN

With K. Kloster, P. Kuinke, M. P. O'Brien*, F. Reidl, F. Sanchez Villaamil, A. van der Poel*.

Toboggan implements an exact FPT algorithm for decomposing a flow on a directed acyclic graph into a minimal number of paths, a problem that commonly occurs in transcript and metagenomic assembly.

AQC-VIRTUAL-EMBED

With T. D. Goodrich*.

Suite for embedding optimization problems into quantum computing hardware using graph minors.

SPIDERDONUTS

With K. Kloster, E. Horton†.

Python code for exploring walk-regularity in graphs and its signature in functions of the adjacency matrix.

BEAVR: Bounded Expansion Algorithm Visualizer

With Y. Hos†, C. Hobbs†, B. Mork†, F. Reidl, N. Rodrigues†.

Python tool offering interactive visualization of the algorithmic pipeline for counting subgraph isomorphisms in graph classes of bounded expansion, as implemented in CONCUSS. BEAVr visually represents the data transformations and information in each stage of the pipeline and enables exploration of new coloring heuristics. BEAVr was primarily developed by a NC State CSC Senior Design team.

CONCUSS: Combatting Network Complexity Using Structural Sparsity

With C. Hobbs†, K. Jasnik, B. Mork†, M. P. O'Brien*, F. Reidl, N. Rodrigues†.

Python software package providing proof-of-concept for an end-to-end pipeline for parameterized analytics in bounded expansion classes. Current modules use low-treewidth colorings and allow users to count the number of occurrences of a specific pattern within a graph (i.e. subgraph isomorphism counting).

INDDGO: Integrated Network Decomposition & Dynamic programming for Graph Optimization

With C. Groer, D. Weerapugge.

Serial and parallel C++/MPI codes providing graph creation, manipulation, and decomposition capabilities, with novel tree-decomposition-based dynamic programming routines for maximum weighted independent set. Primary development occurred while a staff member of Oak Ridge National Laboratory. Project hosted at: <http://github.com/bdsullivan/inddgo>.

* graduate students, † undergraduate students.

ACTIVE RESEARCH GRANTS

Algorithms for Exploiting Approximate Network Structure (PI)

Army Research Office, Research Area 10: Network Science, co-PI: E. Demaine (MIT)

\$538,199

05/2017 – 05/2020

Moore Investigator in Data-Driven Discovery: Enabling Science via Structural Graph Algorithms (PI)

Gordon & Betty Moore Foundation

\$1,500,000

11/2014 – 12/2019

Joint Faculty Appointment (PI)

Oak Ridge National Laboratory (ORNL), Computer Science & Mathematics Division

\$205,144

8/2013 – 8/2019

PRIOR RESEARCH SUPPORT

Parameterized Algorithms Respecting Structure in Noisy Graphs (PARSiNG) (PI)

Defense Advanced Research Projects Agency (DARPA), GRAPHS Program

\$249,200

2014 – 2017

Risk Mitigation of Infectious Diseases via Network Modeling and Mining (site PI)

NC Data Science and Analytics Initiative, co-PIs: D. Janies, X. Shi (UNC-Charlotte)

\$150,000 (NCSU \$75,000)

2015 – 2017

Tracking Community Evolution in Dynamic Graph Data Using Tree-Like Structure (PI)

DATA SCIENCE FACULTY FELLOW

National Consortium for Data Science (UNC-Chapel Hill)

\$30,000

2014 – 2015

Situation Awareness in Complex Networks (co-PI)

Oak Ridge National Laboratory LDRD¹ Program, PI: E. Ferragut (ORNL)

\$650,000

2013 – 2015

Scalable Clustering Methods for Dynamic Health Data (co-PI)

NC State Research and Innovation Seed Funding (RISF), PI: A. Wilson (NCSU)

\$26,000

2014

Pattern Discovery and Predictive Modeling on Heterogeneous Graphs using Cray's uRiKA (co-PI)

Oak Ridge National Laboratory LDRD Program, PI: R. Sukumar (ORNL)

\$390,000

2013 – 2014

SPARTN: Sparse Projections Achieving Randomization in Tree-like Networks (PI)

DARPA GRAPHS Program, co-I: M. Mahoney (Stanford)

\$415,000

2012 – 2014

Connecting Combinatorial and Geometric Tree-like Structure in Complex Networks (PI)

Oak Ridge National Laboratory LDRD SEED Fund

\$200,000

2011 – 2012

Scalable Graph Decomposition and Algorithms to Support the Analysis of Petascale Data (PI)

Department of Energy, OASCR Applied Mathematics Program, co-PI: C. Groër

\$1,200,000

2009 – 2012

¹Laboratory Directed Research & Development

TUTORIALS

Title TBA. <i>Sparsity DocCourse</i> , Charles University, Prague, Czech Republic	November, 2018
Exploiting Graph Structure in Algorithms. <i>ICERM Research Cluster</i> , Providence, RI	April, 2014

TEACHING EXPERIENCE

INSTRUCTOR

◦ Parameterized Algorithms & Complexity (CSC 791/495), NC State University Instructor/Course Rating 4.8/4.8 [NCSU dept. average n/a]	Fall 2017
◦ Automata, Languages and Computability (CSC 333), NC State University Instructor/Course Rating 4.4/4.0 [NCSU dept. average (s.e.m.) 4.0 (.10)/3.8 (0.14)]	Spring 2017
◦ Computer Science Theory Reading Group (CSC 295/801), NC State University	Spr16, Fall16, Spr17
◦ Automata, Languages and Computability (CSC 333), NC State University Instructor/Course Rating 4.3/4.5 [NCSU dept. average (s.e.m.) 4.1 (0.15)/4.3 (0.13)]	Fall 2015
◦ Theory of Computation (CSC 707), NC State University Instructor/Course Rating 4.7/4.5 [NCSU dept. average (s.e.m.) 4.0 (0.029)/4.0 (0.029)]	Fall 2014
◦ Automata, Languages and Computability (CSC 333), NC State University Instructor/Course Rating 4.5/4.3 [NCSU dept. average (s.e.m.) 4.0 (0.035)/3.9 (0.035)]	Fall 2014
◦ Discrete Mathematics for Computer Scientists (CSC 226), NC State University Instructor/Course Rating 4.2/3.9 [NCSU dept. average (s.e.m.) 3.8 (0.037)/3.7 (0.036)]	Spring 2014
◦ Introduction to Calculus & Analytic Geometry (MAT 101), Princeton University	Fall 2006

TEACHING ASSISTANT

- Graph Theory (MAT 306), Princeton University, Spring 2006, Spring 2007
- Calculus II (Math 1502), Georgia Institute of Technology, Fall 2001, Spring 2002

RESEARCH COLLABORATIONS WITH TRAINEES

GRADUATE STUDENTS

Past Ph.D. Students:

- Michael P. O'Brien, NC State University, Computer Science 2013 – 2018 (now at Google)

Current Ph.D. Students:

- Andrew van der Poel, NC State University, Computer Science 2014 – present
- Brian Lavalley, NC State University, Computer Science 2017 – present

Independent Study/Research Assistants:

- Michael Breen-Mckay, NC State University, Computer Science Fall 2018
- Michael Suggs, NC State University, Computer Science Fall 2018
- Eric Horton, NC State University, Computer Science 2017–2018 (MS), Fall 2018 (PhD)
- Timothy D. Goodrich, NC State University, Computer Science 2014 – 2018
- Abida Haque, NC State University, Computer Science Fall 2017
- William Hill, NC State University, Computer Science Fall 2013

Interns (at Oak Ridge National Laboratory):

- Aaron Adcock (Stanford University) 2011–2014

- Christine Klymko (Emory University) 2012
- Zhibin Huang (University of Georgia) 2010

Past Ph.D. Committees:

- Emily Barnard, NC State University, Mathematics March, 2017
“The Canonical Join Representation in Algebraic Combinatorics” (advisor: Nathan Reading)
- James Elliott, NC State University, Computer Science October, 2015
“Resilient Iterative Linear Solvers Running Through Errors” (advisor: Frank Mueller)
- Sadia Sharmin, University of Bergen, Computer Science August, 2014
“Practical Aspects of the Graph Parameter Boolean-width” (advisor: Fredrik Manne)
- Aaron Adcock, Stanford University, Electrical Engineering June, 2014
“Characterizing, Identifying, and Using Tree-like Structure in Social and Information Networks” (advisor: Gunnar Carlsson)

POSTGRADUATES

- Kyle Kloster June 2016–present
- Felix Reidl (now Lecturer at Birkbeck University of London) January 2016–April 2017
- Diego Galindo (now Technologist at Caterpillar) 2012
- Charlotte Kotas (now Research Staff at ORNL) 2012
- Dinesh Weerapurage, post-MS (now Sr. Software Developer at KPMG), 2011 – 2012

UNDERGRADUATES

- Hayley Russell Fall 2018[×]
- Trey Woodlief Spring 2018, Fall 2018[×],[†]
- Allison Fisher Fall 2017*, Spring 2018[×]
- Andrew Wright Fall 2017*, Spring 2018*
- Eric Horton Fall 2016*, Spring 2017*
- Jean-Claude Shore Fall 2016[×],[†], Spring 2017[×],[†]
- Yang Ho (NCSU Undergraduate Research Travel Grant Recipient) Summer 2015, Fall 2015, Spring 2016⁺
- Clayton Hobbs Spring 2015[×], Summer 2015, Spring 2016⁺
- Nishant Rodrigues Summer 2015, Fall 2015, Spring 2016⁺
- Brandon Mork Spring 2015[×], Fall 2015*, Spring 2016⁺
- Alex Chin (NCSU Undergraduate Research Grant Recipient) Fall 2013, Spring 2014
- Matthew Farrell (Albertson College) Summer 2013[#]
- Timothy Goodrich (Valparaiso University) Summer 2013[#]

DOE Science Undergraduate Laboratory Internship (SULI) program

HIGH SCHOOL MATH THESIS STUDENTS

Oak Ridge High School, Oak Ridge, TN

- Megan Kelly and Neall Caughman 2012
Semifinalists in 2012 Siemens Competition.
- Gloria D’Azevedo 2010
Placed at state and national Junior Science & Humanities Symposium.

SELECTED PROFESSIONAL ACTIVITIES

INTERNAL SERVICE

Organizer, NC State Theory Seminar, 2013 – present
www.csc2.ncsu.edu/theoryseminar

NC State Data Science Initiative Advisory Council, 2016 – present

NC State Chancellor's Faculty Excellence Program Data-Driven Science Cluster Faculty Search Committee, 2015–2016

NC State Computer Science Algorithms & Theory Focus Group Lead, 2018 – present.

NC State Computer Science Department Committees

- Chair, Theory Faculty Search Committee, 2018–2019
- Awards Committee, 2017–present
- Revamping First Year of Ph.D. Program Task Force, 2016–2017
- Actionable Faculty Goals Task Force, 2014–2015

Faculty Mentor (NC State Computer Science Department)

- Alessandra Scafuro, Assistant Professor, 2016–present
- Katie Stolee, Assistant Professor, 2017–present
- Hung-wei Tseng, Assistant Professor, 2017–present

ORNL Women in Computing Advisory Board, 2012–2013

ORNL Computer Science & Mathematics Division Awards Committee, 2012

LEADERSHIP AND ORGANIZATION

Co-Chair, SIAM Workshop on Network Science 2016

Vice-Chair (elected), SIAM Activity Group on Discrete Mathematics (SIAGDM), 2018–2020.

Steering Committee Member

- SIAM Workshop on Network Science, 2016–present
- Graph500 Benchmark (<http://www.graph500.org>), 2009–2012

Co-organizer

- Barnraising for Data-Intensive Discovery; with B. King, C. Greene, M. Turk
MDI Biology Laboratory, Spring 2016
<https://mdibl.org/course/barnraising/>
- Research Cluster: Towards Efficient Algorithms Exploiting Graph Structure; w/ E. Demaine, D. Marx
Institute for Computational & Experimental Research in Mathematics (ICERM), Spring 2014
<https://icerm.brown.edu/sp-s14/>

Minisymposia and Special Sessions Organized

- *Discrete Mathematics (and Theoretical Computer Science)*.
Special Session, Association of Women in Mathematics (AWM) Research Symposium, 2015
- *Treewidth: Connecting Fixed-Parameter Tractability, Graphical Models, and Sparse Linear Algebra*.
Minisymposium, SIAM Computational Science & Engineering, 2013
- *Anomaly Detection Methods and Applications*
Minisymposium, SIAM Southeastern Atlantic Sectional, 2013 (with R. Bridges)

PROGRAM COMMITTEES

- Complex Networks 2018
- SIAM Meeting on Algorithm Engineering & Experiments (ALENEX) 2018
- SIAM Workshop on Network Science (NS) 2017
- SIAM Discrete Mathematics (DM) 2016
- SIAM Workshop on Network Science (NS) 2015
- SIAM Workshop on Combinatorial Scientific Computing (CSC) 2014

REFeree/REVIEWER FOR CONFERENCES, JOURNALS, AND FUNDING AGENCIES *including* Journal of the ACM; Discrete Mathematics; Combinatorics, Probability and Computing; SIAM Journal on Discrete Mathematics; Combinatorica; Electronic Journal of Linear Algebra; SIAM Combinatorial Scientific Computing; SIAM Workshop on Network Science; Symposium on Theoretical Aspects of Computer Science (STACS), Workshop on Algorithm Engineering and Experiments (ALENEX), National Science Foundation (NSF), Army Research Office (ARO), and Department of Energy (DOE) Office of Science.

OUTREACH

Invited Presentations

- *Data Science Lunch and Learn*, Research Triangle Institute (RTI), RTP, NC December 2018
- *Research Horizons Seminar*, Georgia Institute of Technology, Atlanta, GA September 2018
- *Kennesaw State University, Infinite Horizons Lecture Series*, Marietta, GA April 2016
- *Oak Ridge National Laboratory, Women in Computing Brown Bag*, Oak Ridge, TN July 2015
- *National Institute for Environmental Health Sciences, Data Science Seminar*, RTP, NC April 2015
- *RTP 180°: Big Data*, Research Triangle Park, NC August 2014
- *SAMSI Education and Outreach Workshop*, Raleigh, NC May 2014
- *NCDS Data Innovation Showcase*, Chapel Hill, NC May 2014
- *SAMSI Education and Outreach Workshop*, Research Triangle Park, NC October 2013
- *PROMYS 20th Reunion*, Boston University, Boston, MA July 2009
- *Nassau Presbyterian Church Adult Education Series*, Princeton, NJ February 2007

Panels

- *R-Ladies RTP Meetup: Data Science Panel*, Raleigh, NC October 2018.
- *CMD-IT National Lab Professional Development Workshop for Underrepresented Participants*
Moderator. Oak Ridge, TN June 2013
- *Emory University Math/CS Graduate Student Lunch & Learn Series*, Atlanta, GA October 2012
- *National Lab Professional Development Workshop for Underrepresented Participants*
Livermore, CA June 2012
- *Department of Homeland Security HS-STEM Career Pathways Conference*
Washington, DC October 2010
- *Career Pathways for Future Homeland Security S&T Professionals*
Washington, DC October 2008
- Head Counselor, Program in Mathematics for Young Scientists (PROMYS), Boston University, Summer 2001.
Guided high school students in elementary number theory; graded problem sets; taught mini-course.

PROFESSIONAL MEMBERSHIPS

Americal Mathematical Society (AMS)

Society for Industrial and Applied Mathematics (SIAM)

Association of Computing Machinery (ACM)
